# Career Cluster Inventory

The Career Cluster Inventory helps you think about activities that you like and matches them to career clusters. Learning more about your interests and how they fit with clusters is one way to find a career you will enjoy!

1. Access Career Cluster Inventory through the **Self-Survey** tab or through **Career Plan** if included.

2. Select **Career Cluster Inventory.**

3. Select **Start** to begin the self-survey.

4. Select **Restore** to see results from a previously taken self-survey.

5. Take time to imagine doing each activity described. Then, select a facial expression to rate how much you like or dislike each activity.

6. **Start Over** or **Save** your self-survey.

7. Use the **back button** to return to a previous question.

8. Your results will show your **Top 3 Career Clusters**. Select a career cluster to explore the description, careers, and education.

9. **Start Over**, **Save** your self-survey results with a note to your dashboard, or **Export PDF** for a report of your results.

10. Review a list of the 16 national career clusters and how many points you scored in each. Explore other clusters you may be interested in.
