# Please share your views on this training by rating the following statements from 1 (lowest) to 10 (highest)

To what extent did it meet your expectations — 7.3

How likely you are to attend a similar event in the future — 9.2

How likely you are to recommend this training to others — 7.8

lowest — highest

The course was relevant to what I wanted to learn about this subject matter?

I plan to apply what I learned?

1st	Strongly agree
2nd	Neither agree or disagree
3rd	Somewhat agree
4th	Strongly disagree
5th	Somewhat disagree

What improvements might you recommend?

n/a

A follow-up meeting to these for us to discuss any issues or positives after we've been able to try them

n/a

N/A thank you for the updates

A Toolbox tying the manual to IWRS as the manual does not spell out IWRS and specific requirements

It would be helpful to select a specific area that needs to be addressed and workshop that area for hands-on learners.

N/A

Hands on training

What improvements might you recommend?

N/A

I appreciate hearing about system updates but would also like to learn more about the basics of navigating IWRS. For example, submitting help ticket, how to change/update info in IWRS like addresses

Great to have Davis

9

What did you find effective? If we make changes, what would you recommend we keep?

The presentation part of this was great. Thank you

Is there anything else about this course you think we should know?

N/A

n/a

I like the idea someone else said about connecting these points to the manual items. We often ask questions and hear "this was covered in so and so webinar" but it's hard to put it together in chunks
